

K4Community Plus User Guide

K4Community Plus is a mobile app for senior living residents and their families and friends. It helps keep residents connected, engaged and active with their community. Get to know K4Community Plus by reading about each “Section” of the mobile app below.

Basics:

The **Home** section of the app is made up of two areas: **What’s New** and **Library**. **What’s New** is a “feed” that shows the most recent Posts from the community. Each “card” in the feed are called “Posts.” The Posts in the Home section are organized chronologically. You can scroll to see older Posts. The Library is a repository of community information.

The **Dining** section of the app is a feed of menu and dining information. You are able to see dining menus here.

The **Chat** section of the app allows you to chat one-on-one with fellow residents and your friends & family members.

The **Events** section of the app is a feed that shares community events. A list of all of the events in your community can be found in “Events”. If you tap on the Attend button, the event is moved to “My Events”.

The **More** section of the app opens a menu in which you can see the Directory, Home Controls and Share K4Community Plus.

More:

The **Directory** section of the app shares a list of all of the residents and staff in your community. You can add a bio to your profile here. You are able to call or chat with a fellow resident by clicking on their name. You can search by name, email, address and more.

The **Resources** folder in the Library is a feed of resources — such as policies, meeting agendas, meeting notes, etc — that your community team publishes.

Share K4Community Plus: This allows you to invite your Friends and Family to sign up for the app so they can see what is happening in your community!

The **Photos** folder in the Library shows all photos posted by the community team.

The **Videos** folder in the Library shows all videos posted by the community team.
