

K4Community Plus New Feature

AI-Assisted Search

Wow, this is cool! How does this work?

The search bar is designed to function like familiar search engines but with added capabilities. Leveraging AI assistance, our search feature goes beyond simple keyword matching to provide you with the most relevant results, even when the exact term is not specified. For instance, a search for “wellness” could yield a variety of outcomes such as upcoming yoga events, fitness articles, and more tailored to your interests. Explore the possibilities and try it out today!
