

K4Community Plus New Feature

Smart Home Scene Creator

Let's set the Scene!

The new Smart Home Scene Creator is an innovative addition that allows you to personalize and automate your smart home experience like never before; making daily living even more convenient and enjoyable!

View and manage existing scenes or create new ones. Change a device at a specific time, trigger a scene change with another device, or manage the temperature. Tailor your scenes to fit your preferences.

To get started, go to your Home Controls menu and click Scenes to see your existing scenes. To create a new scene, click on the plus button at the bottom of your screen.
